

WEB PRIVACY POLICY

for

Bios Research, LLC

Last Updated June 17, 2014

Thank you for visiting the Bios Research website. Your privacy is very important to us. At Bios Research, we want to make your experience with us satisfying and safe.

This Privacy Policy outlines the types of information we gather from your use of the site, how we use it, with whom we might share it, the means by which we keep it secure, and the choices you (“You”) have about the information You choose to share with us. If You have any questions about the privacy practices of the site or this Privacy Policy, please contact us at support@biosres.com.

Personal Information We Collect

Bios Research is committed to protecting your privacy and will collect no personal information about You unless You choose to provide that information to us. Such information is securely stored within the Bios Research private network. As a general rule, Bios Research will not make the personal information gathered using the site available to anyone outside of Bios Research except as instructed by You or where required to comply with law. We may from time to time review your usage of the site to be able to better serve Your needs.

How we Handle Information about Your Visit to Our Site

If you read or download information from the Bios Research site, we automatically collect and store the following information:

- the requested web page
- the domain from which you access our website
- the date and time you access our website
- status of the request (e.g., success or failure)
- the type and version of your web browser
- the operating system of the machine running the web browser

Protection of Your Personal Information

Bios Research has adopted reasonable security measures to protect against unauthorized access to, or unauthorized alteration, disclosure, or destruction of personal information. These measures include internal reviews of our data collection, storage, and processing practices and security measures, as well as physical security measures to guard against unauthorized access to systems where we store personal data.

Bios Research maintains secure data networks protected by industry-standard firewall and password protection systems. Our security and privacy policies are periodically reviewed and enhanced as necessary and only authorized individuals have access to the information provided.
